Data Entry

We have made the following revisions to REDCap based on the feedback we have received recently:

| REDCap Form | Data | Revision made |
|---|-----------------------------------|---|
| Patient Information | Primary ICU Diagnosis | Added option for burns if a surgical (elective or emergency) type of admission is selected. |
| Patient Information (Burn Sites) FOR BURN SITES ONLY | Inhalation Injury Score | Added option for 'N/A' (not available) if no bronchoscopy was done. |
| Daily Enteral Nutrition Data & Daily Parenteral Nutrition Data | Formula Company & Product Name | We will periodically add to this taxonomy. If a formula is entered under 'other', Data Management will resolve it or request further information from you, if needed. |
