

The RE-ENERGIZE Rag

Volume 13, June 2018

*** OUR BEST MONTH EVER! ***

As you can see from the photo, Dr. Daren Heyland is very excited about RE-ENERGIZE having its best month yet, with 30 recruitments in June.

Amazing work everybody!
Keep it up!!!

IMPORTANT

On the “Daily Nutrition” form, only enter the details about protein supplements (i.e. formula name, kilocalories, grams of protein) if the protein supplement was given ENTERALLY. If the protein supplement was given orally, it does not have to be recorded under the “Protein Supplement” heading. Instead, record it under the “Oral Nutrition” section

As discussed at the American Burn Association Meeting, we are posting quality metric data by site.

“Percent Complete” is based on the number of patients at your site with all data completed and queries resolved

Please fill out data and resolve queries to move patients to the finalization stage as soon as possible!

If you have questions about your site, or need more information about moving your patients through the stages, please contact Sarah Baillie
